VisualcontainerTV presents on ExhibitContainer - format dedicated to the most interesting international Videoart projects and festivals- MICROFAILURE: Videoart from Romania.

This is a special project in collaboration with: Museum Tarii Crisurilor Oradea, Department of Fine Arts, University of Oradea (Prof. univ. Dr. Alexandra Titu, Prof. univ. Dr. Aurel Chiriac, Lect. Univ. Dr. Gaie Stefan, Conf univ. Dr. Novicov Ramona, Conf univ. Dr. Gavrilas Diana Gabriela).

Microfailure concerns the diversity of views within the contemporary artistic phenomenon, this diversity is based on concrete realities, and aesthetic and giving life to this project on conceptual instability in video art. The works of video artists selected by the University of Oradea Romania and VisualContainer

"The project is concerned with the diversity of opinions inside the contemporary artistic phenomenon; this diversity is based on different concrete realities, on virtual aesthetic directions which give birth to a certain conceptual instability in video art.

-What is the meaning of these „virtual errors“?

-What experimental philosophy can integrate not only the specula but also the error?

- Is error an important component of aesthetic crisis which can generate and amplify the possibility of ANYTHING, ANYWHERE and ANYHOW?..."
