INTERNATIONAL CALL PAY per VIEW

Since 2009 VisualcontainerTV has been updating new tools to disseminate videoart on the web. Last year, the Platform developed the PAY per VIEW section: a dedicated online ticketing program to pay rights to the authors well.

In this frame, VisualcontainerTV launches an international call to all the artists interested in being part of the platform bouquet and showing in PAY per VIEW with their experimental works such as Experimental film, Experimental doc, videoart works, animation, screendance and performance.

All the artworks presented have to be an original production of the author (are not allowed soundtracks registered by ASCAP, SIAE, SACEM and others..).

The selection is open to all international artists submitting up to 5 video artworks.

At the end of the selection, VisualcontainerTV proposes to artists a professional agreement that defines the membership of the Visualcontainer ETS association and "the Online Exclusive rights" for each artwork submitted and selected for the Pay per View section. The signed agreement between Visualcontainer and the Author is a mandatory point.
